- S O U
- Providing state tax credits and education savings accounts to enable parents to choose what school their child attends.
 - Reserving girls' sports exclusively for biological females.
 - Separating restrooms, locker rooms, and other privacy areas based on biological sex.
 - Permitting students to discuss their Christian faith with others during non-class time on school premises.
 - Allowing school personnel to refer students to abortion providers.
 - Requiring signed permission (opt-in) from a parent before a student may participate in sex education classes or presentations on gender identity theory.
 - Teaching students that America was founded in 1619 with the arrival of African slaves rather than 1776, and that the Revolutionary War was fought in order to preserve slavery, as advocated by the 1619 Project.
 - Providing curricula that advocates critical race theory and its emphasis on defining people as oppressors or oppressed based on group identity or privileges.

1. The public school system needs existing community tax revenue. Without knowing the quality of curriculum at other schools I would question the value.
2. Biological males are easily beating the fastest girls, taking opportunities for college scouting and scholarships, and setting records that perhaps no girl will ever meet.
3. Safety. Students might actually feel unsafe going in these bathrooms. I vote for individual privacy stalls including sink and toilet or traditional practices.
4. Every students experience should be a comfortable one regardless of faith, as well as those who do not have a religious affiliation.
5. That's a parent right to know about and discuss or provide for. That's a huge liability; the school should not be the provider.
6. Parents have a right to know and choose if there child should receive the schools sex education curriculum. Gender Identity Policies are un-proven.
7. The 1619 project is a failed curriculum rejected by most. I support traditional American studies.
8. There is no room in our classrooms for critical race theory. This nonsense puts the parents against the student and the students against each other.
